

Financial Management - Level 4 Short Course

You will learn to implement, monitor and review strategies for the ongoing management of finance in a building business. You will also learn the day-to-day financial management of the business.

On successful completion of this course, participants will be issued with a Statement of Attainment for the unit BSBSBM406A Manage finances.

You may use this unit towards attaining the Certificate IV in Building & Construction (Building).

Participants will learn how to:

- Maintain financial records
- Implement a financial plan
- Monitor financial performance
